15-1-101 Short Title

This Title shall be known as the "Farmington City Sign Ordinance". This Title may also be known as "Title 15, Farmington City Code". It may be cited and pleaded under either designation.

15-1-102 Purpose and Intent

The purpose of this ordinance is to provide minimum standards to safeguard property, public health, safety, and general welfare and to preserve the unique character of Farmington through the establishment of guidelines governing the size, height, design, location, and maintenance of signs. It is not the intent of this ordinance to regulate the message content of signs or to regulate any signs which are not intended to be viewed by the general public from outside the property line. The following goals have been established to help achieve such purpose and intent:

- (1) To encourage signs which help to visually organize the activities of the City, lend order and meaning to business identification, and make it easier for the public and service delivery systems to locate and identify their destinations;
- (2) To assure that all signs, in terms of size, scale, height, and location, are

compatible with adjacent land uses and with the size of the development which they serve;

(3) To implement principles established in the Farmington City General Plan which recognize that the special character of the City rests largely in the quality of its appearance;

(4) To minimize unnecessary distractions to motorists, protect pedestrians, and provide safe working conditions for those persons who are required to install, maintain, repair, and remove signs; and

(5) To be fair to each property owner by providing that equal and adequate exposure to the public is made available and that no signs are allowed to visually dominate neighboring signs.

15-1-103 Scope of Provisions

In interpreting the provisions of this Title, the requirements contained herein are declared to be the minimum standards necessary to accomplish the purposes set forth. The types of signs allowed by this Title are fully described. Signs not specifically described herein shall be prohibited. Where the provisions of this Title impose greater restrictions than any other statute, regulation, ordinance, or covenant, these provisions shall prevail. Where the provisions of any statute, regulation, ordinance, or covenant impose greater restrictions than the provisions of this Title, the provisions of such statute, regulation, ordinance, or covenant shall prevail.

15-1-104 Definitions

Whenever any words or phrases used in this Title are not defined herein, but are defined in related sections of the Farmington City Code or Uniform Building Code, such definitions are incorporated herein and shall apply as though set forth herein in full, unless the context clearly indicates a contrary intention. Such exceptions shall be requested and reviewed in accordance with the conditional use permit process set forth in Chapter 8 of the City Zoning Ordinance. This exception is founded upon the provisions of the Downtown Master Plan for Farmington City. As noted in the Downtown Master Plan, the downtown area of the City contains mixed and diverse uses necessitating and requiring flexibility and discretion in implementing and allowing special deviations from standard requirements of the Zoning Ordinance and other regulations in this area.

(e) The maximum height of ground signs at the minimum setback shall be twenty feet (20') above the elevation of the top of curb nearest to the sign. This height may be increased to a maximum of forty feet (40') if the sign is set back an additional 1.5 feet for each foot of height over twenty feet (20'). - 15-6-101 Purpose and Intent**
- 15-6-102 General Requirements**
- 15-6-103 Signs on Nonconforming Buildings**

- 15-6-101 Purpose and Intent**

It is the intent of this Chapter to recognize that the eventual elimination of existing signs that are not in conformity with the provisions of this Ordinance is as important as the prohibition of new signs that would violate these regulations. It is also the intent of this Chapter that any elimination of nonconforming signs shall be effected so as to avoid any unreasonable invasion of established property rights.

15-6-102 General Requirements

A nonconforming sign shall be properly maintained in accordance with provisions of this Title. A sign shall not be modified in any way except to bring it into conformity with all provisions of this Title. For the purpose of this Title, modification includes:

- (1) A change to another nonconforming sign;
- (2) Any modification resulting in an increase in height or a change to the outside dimensions of the sign cabinet;
- (3) Reestablishment of a nonconforming sign after having been abandoned for ninety (90) days or more;
- (4) Reestablishment of a nonconforming sign after damage or destruction of more than fifty percent (50%) of its replacement value, regardless of the cause. In making a determination, the City shall require a detailed estimate of the cost to repair and restore the damaged sign to its previous condition as well as an estimate of the cost to totally replace the sign; and
- (5) Moving, replacing at the same location, or relocating a nonconforming sign.

15-6-103 Signs on Nonconforming Buildings

Nonconforming buildings closer than ten feet (10') to a public street right-of-way shall only be allowed to have wall signs or awning signs.

CHAPTER 7

VIOLATIONS AND ENFORCEMENT

- 15-7-101 Legal Action**
- 15-7-102 Violations**
- 15-7-103 Penalties**
- 15-7-104 Appeals**

15-7-101 Legal Action

The Zoning Administrator, or his designee, shall be empowered to institute any appropriate action or proceeding in any case where any sign is erected, constructed, reconstructed, altered, repaired, converted, maintained, or used in violation of this Title or the City Building Regulations or Zoning Ordinance. The purpose of such action shall be to prevent

such unlawful uses and restrain, correct, or abate the violations. Legal actions may include:

- (1) Issuing a notice of violation to the person having charge, control, or benefit of any sign found to be unsafe, dangerous, or in any violation of a City Ordinance;
- (2) Issuing of citations and/or swearing out complaints against violators of this Title or causing such citations or complaints to be issued; or
- (3) Impounding illegal signs and assessing an impound fee for their return.

15-7-102 Violations

(1) If it is determined that a violation of this Title exists, the Zoning Administrator shall issue a written order to the alleged violator. The order shall specify those sections of the City Ordinances of which the individual may be in violation and shall state that the individual has fifteen (15) days from the date of the order in which to correct the alleged violation or to appeal to the Board of Adjustment.

(2) The following provisions shall govern the treatment of abandoned signs:

(a) If, upon inspection, it is found that a sign is abandoned or structurally, materially, electrically, or otherwise defective, in such a way as to endanger the public, the Zoning Administrator shall issue a written order to the owner of the sign, and/or the occupant of the premises, stating the nature of the violation and requiring the repair or removal of the sign within fifteen (15) days of the date of the order.

(b) signs shall be considered abandoned and subject to removal pursuant to the procedures of this Section under any of the following circumstances:

i. Where a sign is not kept in good condition, adequately repaired and maintained at all times; the standard for adequate repairs is that the repairs shall be at least equal to the quality and design of the original work in manufacturing and installing the sign, reasonable wear and tear excepted;

ii. Where a sign pertains to activities or occupants that are no longer using the premises on which it is located, and it has not been removed or the sign copy changed within thirty (30) days after the associated enterprise or occupant has vacated the premises; or

iii. Where the sign concerns a specific event and five (5) days have elapsed since the occurrence of that event.

(3) In cases of emergency, or an identified hazard, the Zoning Administrator may

cause the immediate removal of a dangerous or defective sign, which presents a hazard to the public safety, without notice.

(4) Signs located in, or within ten feet (10') of, any public street right-of-way, and determined to be in violation of the provisions of this Title, may be impounded at any time.

15-7-103 Penalties

Any person, firm or corporation, association, partnership, or governmental instrumentality, whether as principal, agent, employee, or otherwise, violating or causing the violation of any of the provisions of this Ordinance, or failing or refusing to do some act required under this Ordinance, shall be guilty of a Class B misdemeanor. A separate offense shall be deemed to have been committed for each day that the violation occurs or continues.

15-7-104 Appeals

Appeals to the Board of Adjustment, as provided for in the Zoning Ordinance, may be made by any person aggrieved by an officer, department, or board of the City in making application for a Sign Permit.
