PROPOSITION

Shall the Board of Education (the "Board") of Davis School District, Utah (the "District"), be authorized to issue general obligation bonds in an amount not to exceed Two Hundred Fifty Million Dollars (\$250,000,000) (the "Bonds") for the purpose of defraying all or a portion of the costs of new school construction, land acquisition, equipment acquisition, and renovation and improvement of existing school facilities, and for payment of expenses reasonably incurred in connection with the acquisition and construction of said improvements and the authorization and issuance of the Bonds; said Bonds to be due and payable in not to exceed twenty-one (21) years from the date of the Bonds?

NOTICE OF PROPERTY TAX INCREASE DUE TO BOND ISSUANCE

Passage of this Proposition means that the tax on a \$252,000 residence within the District would increase by \$156.93 per year.

The tax on a \$252,000 business within the District would increase by \$285.33 per year.

However, the Board expects to issue the bonds in such a manner that no increase in the current tax rate for debt service will occur. If the bonds are approved and sold, the current tax rate will continue for more years than if the bonds are not approved.

The foregoing information is only an estimate of tax increases and is not a limit on the amount of taxes that the Board may be required to levy in order to pay debt service on the Bonds. The Board will be obligated to levy taxes without limitation as to rate or amount in order to pay the Bonds, as provided by law. The amounts are based on various assumptions and estimates, including estimated debt service on the Bonds and taxable values of property in the District.
