

Farmington NEWS

YOU ARE HERE *and you count*

IT MAKES SENSE TO COMPLETE THE CENSUS

Farmington City invites you to participate in the 2020 Census. You are here and you count! The United States Census is so much more than a head count. It is a snapshot of America that determines how congressional seats are apportioned; how federal, state and city dollars are distributed; where businesses choose to ship products, and so much more. To do all that properly, the count needs to

be accurate. The census counts every living person in place on April 1, which includes young children and newborns, adult children (temporarily living at home) or the elderly. Every household in the United States will be asked to answer a short series of questions that will influence policy-making and planning for the next decade. The census will make it as easy as possible for people to be

counted. The census, which begins in March 2020, will, for the first time ever, offer three response options: internet, telephone and mail. Complete census forms will officially be due on April 1, 2020—Census Day.

For more information, please visit farmington.utah.gov/news-and-events/.

Spring! CLEANUP TIME

beginning Monday, March 23rd
north half of the city from
State Street to city limits, including the
Oakridge area

beginning Monday, March 30th
south half of the city from
State Street to city limits, including the
west Farmington area

spring cleanup continued

Farmington City has changed contractors for the annual spring cleanup from Bland Tree Experts, who has helped with the cleanup for over thirty years, to Robinson Waste Services. The first week of February, the city was informed that Bland is no longer in business. Due to the short notice, the city had to choose dates that work with Robinson's schedule.

The pickup is strictly for residential limbs and branches. The following rules will be strictly enforced.

- Limbs must be cut so that they are no longer than 5 feet or wider than 8 inches.
- Limbs and branches must be stacked at the curb in a pile no larger than approximately 10 feet long, 6 feet wide and 4 feet high. Stacking limbs in the same direction allows for more volume in the pile.
- Material must be placed at the curb *before* beginning collection day.
- Collection trucks will *only* drive by your home **ONCE**.
- No bags or boxes
- Leaves can be left in piles

Materials collected will be mulched at the Central Davis Sewer District Treatment Plant.

Street sweeping will be done after spring cleanup is completed. Because they will plug the vacuum hose, the sweeper cannot pick up limbs or twigs over 6 inches long.

After the cleanup is done, please rake the limbs and twigs in your gutter and throw them in your garbage can.

This will help the street sweeper be more efficient.

PROTECT GROUNDWATER and SURFACE WATER

remember, we all live downstream

Waste is often disposed in our yards and neighborhoods. Some hazardous products are disposed by throwing them in the trash, pouring them in a ditch, dumping them on a vacant lot, or burning them in the "back 40." Waste disposed in an open dump, or even underground, can percolate through the soil and contaminate groundwater.

To minimize the pollution potential from household waste, it is important to minimize the amount of waste produced, especially hazardous waste. Examine any activities that involve the use of hazardous materials and make sure that you really need all the products you are buying. Carefully consider how to use the products safely and recycle or reuse them when possible. Dispose of used or remaining products in a way that will not pose a risk to surface water or groundwater. A few simple management principles apply in every situation:

Follow the label.

Contain any unusable waste, spills, and drips for appropriate disposal.

Take uncontaminated recyclables to a recycling facility if one is available.

Never throw away or bury waste in the ground or in abandoned wells.

Do not pour waste down the drain.

DID YOU KNOW

Thank you for your patience during snow removal season. City crews do their best to clear city streets in a prompt, efficient and safe manner. Most Farmington residents understand the daunting task the city faces in predicting the timing of snowstorms and then responding in a way that satisfies everyone. Did you know that some Farmington streets are state roads and are consequently not the city's responsibility to clear? State roads include:

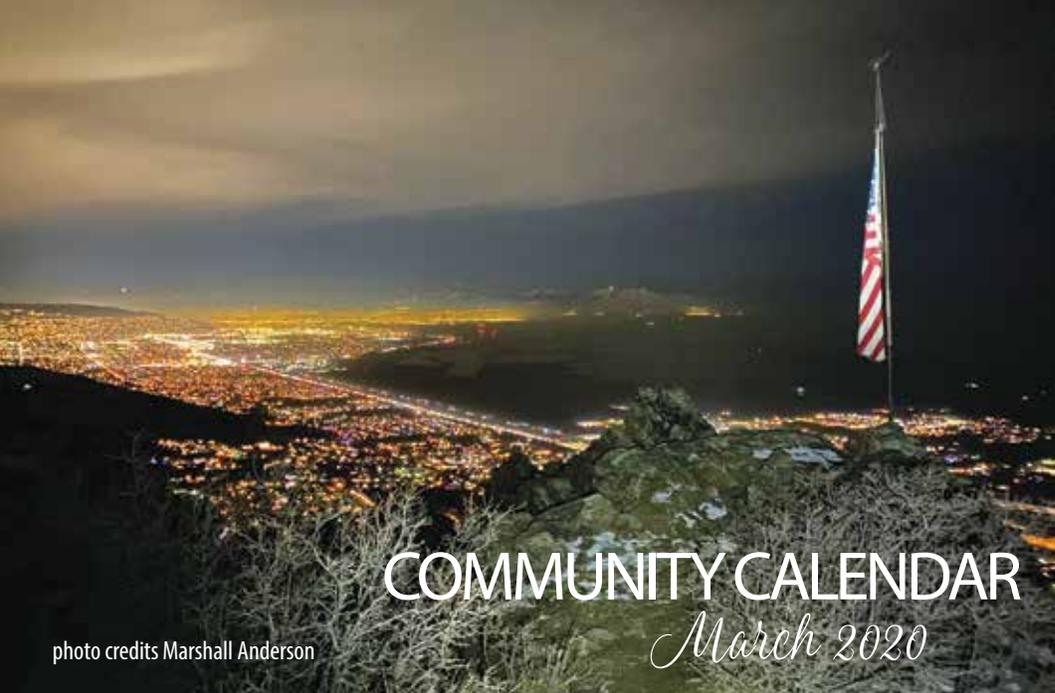

- 200 East from State Street to Lund Lane
- State Street from 200 East to 200 West
- 200 West from State Street to I-15
- Main Street from State Street to Shepard Lane
- Park Lane from Main Street to 1100 West
- Shepard Lane from Main to HWY 89

If you live along one of those roads, suggestions should be passed along to the state rather than the city.

Verify your Voter Registration is current Today
Vote.Utah.gov

2020 is going to be the largest and busiest election year we have ever faced. Be ready by making sure you are registered to vote and that your voter registration is current. There will be three elections this year. It is important that you get registered and stay registered.

DAVIS COUNTY COURTHOUSE renovation that respects historic design

by
Commissioner
Randy Elliott

Rendering of Renovated Courthouse Front Entry

In 1929, Davis County Commissioners announced plans to enlarge the county courthouse. Interestingly, the expansion was built around the 1890s red brick courthouse, so there is a courthouse within a courthouse. An initial renaissance design with a turret entrance was replaced by a more traditional plan featuring a classical Grecian portico supported by six Ionian columns. The project was completed three years later in 1932.

A 1957–58 addition doubled the courthouse and another large addition to the southern side was completed in 1979.

A 1997 renovation removed the ceiling installed in the front entry hall during the 1929–32 construction, revealing the original ornate ceiling, now lighted with antique electrical fixtures.

The courthouse is again undergoing renovation. The current scope of

the new project is to remove the 1958 and 1979 additions while renovating the original historical 1932 section. This includes bringing the building up to current accessibility and seismic standards, while keeping historical interior finishes and exterior memorial elements intact.

The schedule for the project will begin in the spring/summer of this year, starting with asbestos abatement and demolition services. Renovation efforts will continue into 2021 with planned completion in 2022.

Davis County is excited to bring this historical building back into use. Various county legal departments will be located in the new courthouse, and there will be an event space for county functions on the second floor. The facility will be aesthetically pleasing as well as functional, with increased surrounding landscape, outdoor gathering spaces, and war memorials for visiting and viewing. The renovated county courthouse promises to serve the community for generations to come.

On Saturday April 18, 2020 an extra day of automated garbage collection will be provided city-wide.

Materials should fit within the regular, black roll-out container and placed at the curb by 6:00 am. No non-processable waste, such as rocks, dirt, appliances, hazardous wastes, etc. is permitted. Robinson Waste Services contracts with the city to provide for this annual service.

The Utah League of Cities and Towns invites all 4th and 7th grade students to participate in an essay contest

— WHY I LIKE MY COMMUNITY —

and share their thoughts on what makes Farmington so wonderful.

Students who win the 1st, 2nd, and 3rd prizes will receive a cash prize, as will their individual schools. All entries must be received by midnight, March 31, 2020. One entry per class will be accepted.

For guidelines and entry forms, go to ulct.org/training-events/ulct-youth-essay-contest/
