

# 2016 Festival Days Pickleball Tournament Rules

## Game and Match

In tournaments, a match will consist of the best 2 out of 3 games to 11. A game is finished when a team reaches 11 points and is leading by at least two points. If the score is tied at 10-10, then the game continues until one team wins by two points. Players switch sides after the first game. If a third game is needed, the players will switch sides after the first player or team gets to 6 points, and the game will then continue to its conclusion.

For consolation events, or when time is short, matches often consist of just one game to 15 points. The winner in this format must also be ahead by two points. In a 15 point game, players should switch sides after one team gets to 8 points, and the game will then continue to its conclusion.

## Serving

- At the start of each new game, only one player on the first serving team is allowed a service turn before giving up the ball to the opponents. Thereafter both members of each team will have a service turn before the ball is turned over to the opposing team.
- In doubles, the player on the right at the start of a service turn, will be the first person to serve for their team and will continue to serve until he or she does not win a point. Then his or her partner will serve until he or she does also does not win a point. Then it is the other team's turn to serve.
- When the serving team scores a point, the server moves to the other side of the serving team's court. The receiving team should never switch sides.
- If the serve rotation is done properly in doubles, the serving team's score will always be even when the player that started the game on the right side is on the right side and odd when that player is on the left side .

## Non-Volley Zone:

To volley a ball means to hit it in the air without letting it bounce. All volleying must be done with the player's feet behind the non-volley zone.

- If a player's momentum causes them to step on or over the non-volley line after hitting a volley they have committed a fault and lose the point.
- If a player's paddle, clothing, hat, or any part of their body touches any part of the non-volley zone while hitting a volley or because of their forward momentum after hitting the ball they lose the point.
- A player may jump across the no-volley line after hitting a volley if they don't touch any part of the non-volley zone including the lines while doing so.

## **Double Bounce Rule**

Each team must play their first shot off the bounce. That is, the receiving team must let the serve bounce and the serving team must let the return of the serve bounce before playing it. After the two bounces have occurred, the ball can either be volleyed or played off the bounce.

## **Faults**

The ball may only bounce once per side. After the ball is hit by a player, it must travel to the other side of the net.

If the ball hits one of the sidelines or the baseline, it is a playable ball. When a player or team fails to win the rally they are said to have made a **fault**. Some, but not all of the things that cause a fault are listed below:

- Serving the ball into an incorrect area.
- Hitting the ball out of bounds.
- Volleying the ball before it has bounced once on each side.
- Hitting the ball into the net or hitting the net with your paddle or body.
- Hitting the ball while in the non-volley zone before it is allowed to bounce.
- Touching the non-volley zone with your paddle or clothes while attempting to hit a volley.
- Stepping on or over the non-volley zone line on a follow through.
- Missing the ball when you try to hit it.
- Server swings the paddle with the intent of hitting the ball but misses.
